Professional Experience

- **Research Intern**
International Computer Science Institute (ICSI) at UC Berkeley *Summer 2015, 2017, and 2018*
I worked on developing a mobile privacy measurement application with Narseo Vallina-Rodriguez, Srikanth Sundaresan, and Christian Kreibich under the supervision of Vern Paxson. Later I worked with my collaborators at ICSI to analyze data collected by our mobile measurement platform to better understand the mobile ecosystem from the edge, resulting in a number of paper submissions.
- **Seasonal OTF Research Fellow**
The Citizen Lab at University of Toronto *Spring 2015*
Worked on ICLab, a platform to measure Internet interference under supervision of Ronald Dibert.
